SUMMARY

- Final-year Statistics student at National Cheng Kung University (NCKU) with strong analytical skills in data analysis, statistical modeling, and machine learning.
- Proficient in Python, R, and Microsoft Excel for data processing, automation, and predictive modeling, including techniques such as Random Forest and XGBoost.
- Hands-on experience in data management, technical documentation, and workflow optimization through internship work in an engineering project environment.
- Demonstrated ability in project coordination, logistics management, and cross-functional teamwork through leadership and event planning roles in international student organizations.

PROFESSIONAL EXPERIENCE

AREA Energy International Pte Ltd – Taichung Branch Jan 2026 – Feb 2026
Project Management Intern

- Managed PTW (Permit-to-Work) documentation and project records (CMIV, Site Instructions) for a gas storage tank construction project.
- Conducted quantity take-offs using PlanSwift and Microsoft Excel for equipment and materials.
- Developed a Python automation script to organize and standardize cable codes, improving data consistency and reporting efficiency.

Hult Prize – Logistics Team Member Jan 2026 – Present

- Assisted in venue preparation, equipment setup, and participant coordination for competition events.
- Supported operational processes to ensure smooth execution of activities and schedules.
- Coordinated with team members to manage event materials, logistics planning, and on-site support.

Tainan Indonesian Student Association (TISA) 2023 – 2024
Logistics Coordinator

- Assisted in organizing orientation events for new students, managing venue reservations, performance coordination, and resource allocation.
- Addressed operational challenges during events to ensure timely execution and budget compliance.

Overseas Chinese Student Association 2023 – 2024
Member

- Organized orientation events for new students, managing logistics such as venue booking, performance coordination, and resource allocation.
- Handled unforeseen challenges effectively, ensuring events stayed on schedule and within budget.

RESEARCH PROJECT

- AI CUP 2024 – Solar Power Generation Prediction
Developed machine learning models (LSTM, Gradient Boosting Regressor) to forecast solar photovoltaic power generation using regional microclimate and historical weather data.
- General Model for Binary Classification
Built a hybrid XGBoost–Logistic Regression framework to optimize binary classification across 49 datasets, selecting models based on AUC performance.
- Taiwan Drunk Driving Trend Forecasting (Time Series Analysis)
Built a SARIMA time-series model to analyze and forecast monthly drunk-driving incidents in Taiwan using historical traffic data. Conducted stationarity testing, ACF/PACF analysis, model selection (AIC/BIC), and residual diagnostics to produce short-term accident forecasts.

SKILLS

ADDITIONAL INFORMATION

- National Cheng Kung University**
Overseas Chinese Top 15 % of Class student Ranking Spring 2023
- Practical Python Programming Certificate (Evergreen Institute, 2020)**
Completed a 48-hour Practical Python Programming coursework and was awarded a Certificate of Participation by Evergreen Institute.
- Participant – National Science Competition (Physics Category), 2021**
Selected and participated in the Physics Competition at the 2021 National Science Festival (Pesta Sains Nasional) organized by IPB University.

- Technical Knowledge: Statistical Modeling | Machine Learning | Time Series Analysis | Predictive Analytics | Data Cleaning & Data Wrangling | Financial Analysis | Investment Analysis | Business Analytics
- Software: Python | R | Microsoft Excel | SQL | PlanSwift | Microsoft Office | PowerPoint
- Machine Learning Tools: Scikit-learn | XGBoost | Random Forest | Logistic Regression | LSTM | Pandas | NumPy | Matplotlib | ggplot2
- Soft Skills: Data-Driven Decision Making | Project Management | Leadership | Communication | Problem Solving | Critical Thinking | Team Collaboration
- Languages: Chinese (Professional Proficiency) | English (Fluent) | Indonesian (Native)

個人簡介

- 國立成功大學（NCKU）統計系應屆畢業生，具備扎實的資料分析、統計建模與機器學習能力。
- 熟練使用 Python、R 與 Microsoft Excel 進行資料處理、自動化及預測模型建構，包含 Random Forest 與 XGBoost 等技術。
- 於工程專案實習中累積資料管理、技術文件處理與流程優化的實務經驗。
- 透過國際學生組織之領導與活動籌辦經驗，展現專案協調、物流管理及跨部門團隊合作能力。

專業經歷

AREA Energy International Pte Ltd – 台中分公司	Jan 2026 – Feb 2026
專案管理實習生（Project Management Intern）	
- 負責氣體儲槽建設專案之 PTW（工作許可證）文件與專案紀錄（CMIV、施工指示）管理 - 使用 PlanSwift 與 Excel 進行設備與材料的數量計算（Quantity Take-off） - 開發 Python 自動化腳本整理與標準化電纜編碼，提升資料一致性與報告效率	
Hult Prize – 物流團隊成員（Logistics Team Member）	Jan 2026 – Present
- 協助競賽活動之場地準備、設備設置及參賽者協調 - 支援營運流程，確保活動順利進行 - 與團隊合作管理活動物資、物流規劃及現場支援	
台南印尼學生協會（TISA）	2023 – 2024
物流協調員（Logistics Coordinator）	
- 協助籌辦新生迎新活動，包括場地預訂、表演安排及資源分配。 - 解決活動過程中的營運問題，確保活動準時執行並符合預算。	
僑生聯誼會（Overseas Chinese Student Association）	2023 – 2024
成員（Member）	
籌辦新生活動，負責場地預訂、表演協調與資源配置等物流工作。	
有效應對突發狀況，確保活動進度與預算控制。	

研究專案

- AI CUP 2024－太陽能發電預測
- 建立機器學習模型（LSTM、Gradient Boosting Regressor），結合區域微氣候與歷史氣象資料，預測太陽能光伏發電量。
- 二元分類通用模型（General Model for Binary Classification）
- 建構 XGBoost 與 Logistic Regression 混合模型架構，於 49 個資料集上優化二元分類表現，並以 AUC 作為模型選擇標準。
- 台灣酒駕趨勢預測（時間序列分析）
- 建立 SARIMA 時間序列模型，利用歷史交通資料分析並預測台灣每月酒駕案件數。
 - 進行平穩性檢定、ACF/PACF 分析、模型選擇（AIC/BIC）及殘差診斷，以產出短期事故預測結果。

其他資訊

- 實用 Python 程式設計證書（長榮大學，2020）
- 完成 48 小時實用 Python 程式設計課程，並獲頒參與證書。
- 全國科學競賽參賽者（物理組，2021）
- 經遴選參與由 IPB University 主辦之 2021 年全國科學節（Pesta Sains Nasional）物理競賽。
- 國立成功大學 僑生班成績排名前 15%（2023年春季）

技能

- 專業技能：統計建模 | 機器學習 | 時間序列分析 | 預測分析 | 資料清理與資料處理 | 財務分析 | 投資分析 | 商業分析
 - 軟體工具：Python | R | Microsoft Excel | SQL | PlanSwift | Microsoft Office | PowerPoint
 - 機器學習工具：Scikit-learn | XGBoost | Random Forest | Logistic Regression | LSTM | Pandas | NumPy | Matplotlib | ggplot2
 - 軟實力：資料導向決策 | 專案管理 | 領導能力 | 溝通能力 | 問題解決 | 批判性思考 | 團隊合作
- 語言能力：中文（專業程度） | 英文（流利） | 印尼文（母語）
